

Directions to Biostatistics offices and conference room

We are located in the Mid-Campus Housing area in the Galena building. The location is south of the Student Rec Center and just north and east of the School of Nursing.

Enter the building here

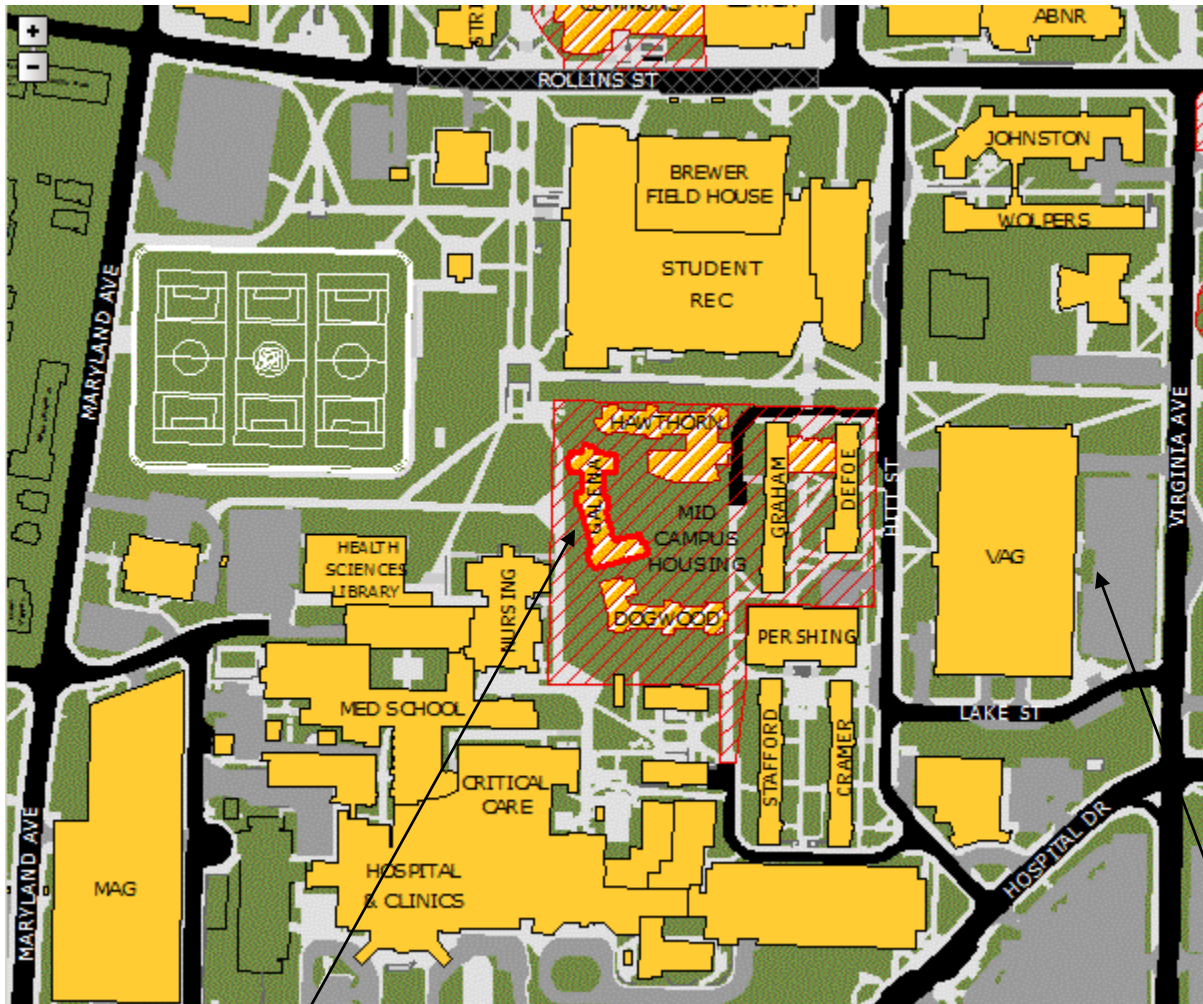

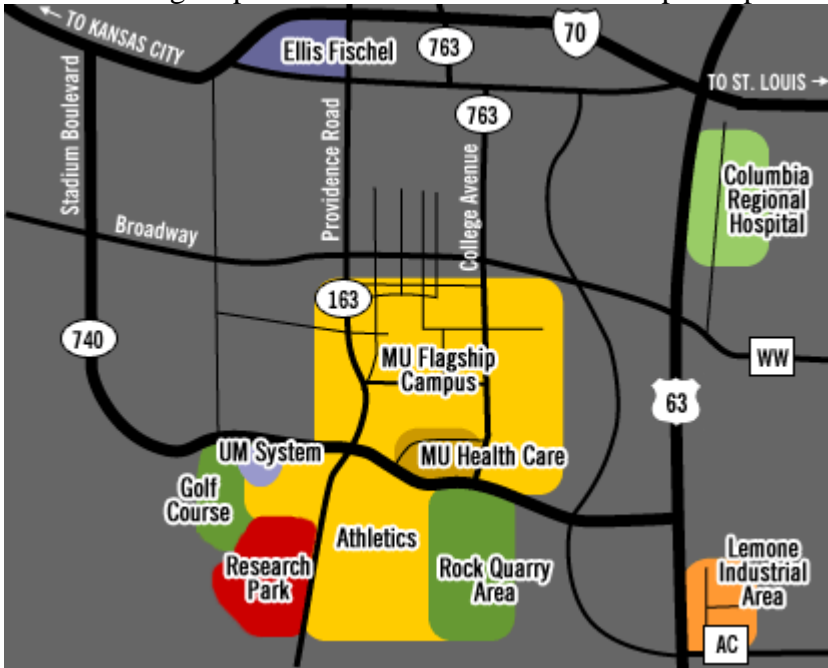

When you enter the building you will be in a small lobby area. The first door on the right enters a corridor where our offices are located. The biostat offices are located on the right side of the corridor. The first three offices are Wade's, Bin's, and Dick's. Others are located further down the hall and to the right.
